Office Action Summary	Application No. 10/576,527	Applicant(s) KALLED ET AL.	
	Examiner GYAN CHANDRA	Art Unit 1646	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Notice of Non-compliance

It is noted to applicants that 37 CFR 1.121(c) requires that claims amendments to a claim must be made by rewriting the entire claim with all changes (e.g., additions and deletions) as indicated in this subsection, except when the claim is being canceled.

Each amendment document that includes a change to an existing claim, cancellation of an existing claim or addition of a new claim, must include a complete listing of all claims ever presented, including the text of all pending and withdrawn claims, in the application. The claim listing, including the text of the claims, in the amendment document will serve to replace all prior versions of the claims, in the application. In the claim listing, the status of every claim must be indicated after its claim number by using one of the following identifiers in a parenthetical expression: (Original), (Currently amended), (Canceled), (Withdrawn), (Previously presented), (New), and (Not entered).

For example claims 3, 7-10, 12-14 are amended to change "BAFF antagonist" to "antibody" but the claims indicate (original). Additionally, the Examiner has withdrawn claims 7, and 9-14 for being drawn to a non-elected invention but the claims filed on 3/12/2009 do not reflect such by placing the term "withdrawn" within a bracket as per 37 CFR 1.121(c).

Election/Restrictions

Applicants' election of species B cell hyperplasia in response filed on 11/12/2008 has been acknowledged in pg. 2 of the office action of 12/10/2008. Therefore, claims 7 and 9-14 remain withdrawn as being drawn to a non-elected invention and are not included in the instant restriction election.

It is noted to applicants that since they have received an action on the merits for the originally presented invention, the next office action will be made final.

Art Unit: 1646

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1, claim(s) 1-6, 8, 15, 16 and 30-33, as drawn to a method of treating a patient having an immunological disorder comprising administering an antibody that specifically binds to SEQ ID NO: 1.

Group 2, claim(s) 1-6, 8, 15, 16 and 30-33, as drawn to a method of treating a patient having an immunological disorder comprising administering an antibody that specifically binds to SEQ ID NO: 7.

Group 3, claim(s) 1-6, 8, 15, 16 and 30-33, as drawn to a method of treating a patient having an immunological disorder comprising administering an antibody that specifically binds to SEQ ID NO: 8.

The inventions listed as Groups 1-3 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

- A. Group 1, recites the special technical feature of treating a patient having an immunological disorder comprising administering an antibody that specifically binds to SEQ ID NO: 1, which is not required by the method of Groups 2-3.
- B. Group 2, recites the special technical feature of treating a patient having an immunological disorder comprising administering an antibody that specifically binds to SEQ ID NO: 7, which is not required by the method of Groups 1 and 3.
- C. Group 3, recites the special technical feature of treating a patient having an immunological disorder comprising administering an antibody that specifically binds to SEQ ID NO: 8, which is not required by the method of Groups 1 and 2.

Restriction for examination purposes as indicated is proper because all these inventions listed in this action are independent or distinct for the reasons given above and there would be a serious search and examination burden if restriction were not required because one or more of the following reasons apply:

Art Unit: 1646

- (a) the inventions have acquired a separate status in the art in view of their different classification;
- (b) the inventions have acquired a separate status in the art due to their recognized divergent subject matter;
- (c) the inventions require a different field of search (for example, searching different classes/subclasses or electronic resources, or employing different search queries);
- (d) the prior art applicable to one invention would not likely be applicable to another invention;
- (e) the inventions are likely to raise different non-prior art issues under 35 U.S.C. 101 and/or 35 U.S.C. 112, first paragraph.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse. Traversal must be presented at the time of election in order to be considered timely. Failure to timely traverse the requirement will result in the loss of right to petition under 37 CFR 1.144. If claims are added after

Art Unit: 1646

the election, applicant must indicate which of these claims are readable on the elected invention.

If claims are added after the election, applicant must indicate which of these claims are readable upon the elected invention.

Should applicant traverse on the ground that the inventions are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to GYAN CHANDRA whose telephone number is (571)272-2922. The examiner can normally be reached on 8:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gary Nickol can be reached on (571) 272-0835. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
